

## Declaration of Commitment to the Science Based Targets initiative (SBTi)

Schelde Exotech hereby declares its commitment to the Science Based Targets initiative (SBTi). We commit to setting science-based CO<sub>2</sub> reduction targets that align with the goals of the Paris Climate Agreement to limit global warming to well below 2°C, and preferably to 1.5°C, above pre-industrial levels.

We will map and reduce our  $CO_2$  emissions in accordance with the guidelines of the SBTi, and we will report transparently on our progress. We recognize the urgency of climate change and the need to take action now to ensure a sustainable future.

Welcome to the SBTi Services Validation Portal
